Caring Connections, a program of the National Hospice and Palliative Care Organization (NHPCO), is a national consumer engagement initiative to improve care at the end of life.

It's About How You LIVE

It's About How You LIVE is a national community engagement campaign encouraging individuals to make informed decisions about end-of-life care and services. The campaign encourages people to:

- L**earn about options for end-of-life services and care
- I**mplement plans to ensure wishes are honored
- V**oice decisions to family, friends and health care providers
- E**ngage in personal or community efforts to improve end-of-life care

Note: The following is not a substitute for legal advice. While Caring Connections updates the following information and form to keep them up-to-date, changes in the underlying law can affect how the form will operate in the event you lose the ability to make decisions for yourself. If you have any questions about how the form will help ensure your wishes are carried out, or if your wishes do not seem to fit with the form, you may wish to talk to your health care provider or an attorney with experience in drafting advance directives.

Using these Materials

BEFORE YOU BEGIN

1. Check to be sure that you have the materials for each state in which you may receive health care.
2. These materials include:
 - Instructions for preparing your advance directive, please read all the instructions.
 - Your state-specific advance directive forms, which are the pages with the gray instruction bar on the left side.

ACTION STEPS

1. You may want to photocopy or print a second set of these forms before you start so you will have a clean copy if you need to start over.
2. When you begin to fill out the forms, refer to the gray instruction bars — they will guide you through the process.
3. Talk with your family, friends, and physicians about your advance directive. Be sure the person you appoint to make decisions on your behalf understands your wishes.
4. Once the form is completed and signed, photocopy the form and give it to the person you have appointed to make decisions on your behalf, your family, friends, health care providers and/or faith leaders so that the form is available in the event of an emergency.
5. Nevada maintains an Advance Directive Registry. By filing your advance directive with the registry, your health care provider and loved ones may be able to find a copy of your directive in the event you are unable to provide one. You can read more about the registry, including instructions on how to file your advance directive, at www.livingwilllockbox.com.
6. You may also want to save a copy of your form in an online personal health records application, program, or service that allows you to share your medical documents with your physicians, family, and others who you want to take an active role in your advance care planning.

Introduction to Your Nevada Advance Directive

This packet contains a legal document, a **Nevada Advance Directive**, that protects your right to refuse medical treatment you do not want, or to request treatment you do want, in the event you lose the ability to make decisions yourself. You may fill out Part I, Part II, or both, depending on your advance planning needs. You must complete Part III.

Part I is the **Nevada Power of Attorney for Health Care Decisions**. This part lets you name someone, called your agent, to make decisions about your health care—including decisions about life-sustaining treatments—if you can no longer speak for yourself. The power of attorney for health care decisions is especially useful because it appoints someone to speak for you any time you are unable to make your own health care decisions, not only at the end of life.

Part I also allows you to express your desires regarding your health care and other advance planning decisions, including your desires regarding life-sustaining treatments, in order to help guide your agent.

Part I goes into effect when your doctor determines in writing that you are no longer able to make or communicate your health care decisions.

Part II is a **Nevada Declaration**, which is your state's living will. Part II lets you state your wishes regarding the withholding and withdrawing of life-sustaining treatments, including the artificial administration of nutrition and hydration, in the event that you can no longer make your own health care decisions and you are terminally ill.

The declaration in Part II becomes effective when—and is only effective when—your attending physician determines that (1) you are incapable of making decisions about the use of life-sustaining treatment and (2) you have a terminal condition. Because Part II is limited in this way and Part I allows you to express the same decisions, if you plan to complete Part I, you may wish to leave Part II blank and record your advance planning wishes in Part I only.

Part III contains the signature and witnessing provisions so that your document will be effective.

Following the advance directive is an **Organ Donation Form**.

This form does not expressly address mental illness. If you would like to make advance care plans regarding mental illness, you should talk to your physician and an attorney about a durable power of attorney tailored to your needs.

Note: These documents will be legally binding only if the person completing them is a competent adult who is at least 18 years of age.

Instructions for Completing Your Nevada Advance Directive

How do I make my Nevada Advance Directive legal?

If you fill out Part II, you must sign your form in front of two witnesses.

If you fill out Part I, you can make your advance directive legal in one of two ways.

1. Sign your document in the presence of two witnesses. These witnesses cannot be:
 - the person you name as your agent,
 - a health care provider,
 - an employee of a health care provider,
 - an operator of a health care facility, or
 - an employee or an operator of a health care facility.

At least one of your witnesses must be a person who is not related to you (by blood, marriage or adoption) and who will not inherit from you under any existing will or by operation of law.

Signing your document in this way will also make Part II legal.

OR

2. Have your signature witnessed by a notary public. Having your signature notarized will only make Part I legal (*i.e.*, Part II needs an additional witness besides the notary).

Whom should I appoint as my agent?

Your agent is the person you appoint to make decisions about your health care if you become unable to make those decisions yourself. Your agent may be a family member or a close friend whom you trust to make serious decisions. The person you name as your agent should clearly understand your wishes and be willing to accept the responsibility of making health care decisions for you.

Unless he or she is your spouse, legal guardian, or next of kin, the person you appoint as your agent **cannot** be:

- your health care provider,
- an employee of your health care provider,
- an operator of a health care facility, or
- an employee of a health care facility.

You can appoint two or more persons to act as co-agents. Unless you provide otherwise, each co-agent will be able to exercise authority independently. You also may appoint one or more successor agents who step in if the person you name as agent is unable, unwilling or unavailable to act for you.

Should I add personal instructions to my Nevada Advance Directive?

One of the strongest reasons for naming an agent is to have someone who can respond flexibly as your health care situation changes and deal with situations that you did not foresee. If you add instructions to this document it may help your agent carry out your wishes, but be careful that you do not unintentionally restrict your agent's power to act in your best interest. In any event, be sure to talk with your agent about your future medical care and describe what you consider to be an acceptable "quality of life."

What if I change my mind?

You may revoke your advance directive at any time in any manner that expresses your intent.

You may revoke the appointment of your agent (Part I) at any time by notifying your agent or your treating physician, hospitals, or other health care provider orally or in writing.

Your durable power of attorney (Part I) is automatically revoked if:

- you execute a new durable power of attorney, or
- you appoint your spouse as your agent and your marriage ends (unless you state otherwise under Part I).

If you wish to set an expiration date for your durable power of attorney (Part I), you may do so on page 4, section 5. If you do not set an expiration date, your durable power of attorney remains valid until it is revoked.

Revocation of your declaration (Part II) is effective when you notify your attending physician.

What other important facts should I know?

A direction to withhold or withdraw life-sustaining treatment from a pregnant patient is not effective if it is probable that the fetus would survive to the point of live birth with continued life-sustaining treatment.

Your agent does not have the power to authorize any of the following:

- Abortion
- Sterilization
- Commitment or placement in a facility for treatment of mental illness
- Convulsive treatment
- Psychosurgery
- Aversive intervention (punishment meant to encourage or discourage behavior)
- Experimental, biomedical, or behavioral treatment, or participation in any medical, biomedical, or behavioral research program
- Any other treatment for which you, in your Durable Power of Attorney for Health Care (Part I), state that your agent may not consent.

Part II: Declaration Relating to the Use of Life-Sustaining Treatment

If I should lapse into an incurable and irreversible condition that, without the administration of life-sustaining treatment, will, in the opinion of my attending physician, cause my death within a relatively short time (a terminal condition) and I am no longer able to make decisions regarding my medical treatment, I direct my attending physician, pursuant to the Nevada Uniform Act on the Rights of the Terminally Ill, to:

Any questions regarding how to interpret or apply my declaration shall be resolved by my agent appointed under a durable power of attorney for health care (Part I), if I have appointed one.

You Have Filled Out Your Health Care Directive, Now What?

1. Your *Nevada Advance Directive* is an important legal document. Keep the original signed document in a secure but accessible place. Do not put the original document in a safe deposit box or any other security box that would keep others from having access to it.
2. Give photocopies of the signed original to your agent and alternate agent, doctor(s), family, close friends, clergy, and anyone else who might become involved in your health care. If you enter a nursing home or hospital, have photocopies of your document placed in your medical records.
3. Be sure to talk to your agent(s), doctor(s), clergy, family, and friends about your wishes concerning medical treatment. Discuss your wishes with them often, particularly if your medical condition changes.
4. Nevada maintains an Advance Directive Registry. By filing your advance directive with the registry, your health care provider and loved ones may be able to find a copy of your directive in the event you are unable to provide one. You can read more about the registry, including instructions on how to file your advance directive, at www.livingwilllockbox.com.
5. You may also want to save a copy of your form in an online personal health records application, program, or service that allows you to share your medical documents with your physicians, family, and others who you want to take an active role in your advance care planning.
6. If you want to make changes to your documents after they have been signed and witnessed, you must complete a new document.
7. Remember, you can always revoke your Nevada document.
8. Be aware that your Nevada document will not be effective in the event of a medical emergency. Ambulance and hospital emergency department personnel are required to provide cardiopulmonary resuscitation (CPR) unless they are given a separate directive that states otherwise. These directives called "prehospital medical care directives" or "do not resuscitate orders" are designed for people whose poor health gives them little chance of benefiting from CPR. These directives instruct ambulance and hospital emergency personnel not to attempt CPR if your heart or breathing should stop.
Nevada law authorizes the use of a Summary of Physician Orders for Scope of Treatment (SMOST) form, which is designed to help health care providers honor your wishes regarding CPR and other health care decisions. We suggest you speak to your physician if you are interested in obtaining one. **Caring Connections does not distribute these forms.**
